

20 February 2017

REF/002

To Whom It May Concern:

As project coordinator of Canada Fund for Local Initiatives (CFLI), I acknowledge the cooperation with Albanian NGO "Observatory since 2014".

CFLI has funded several projects related to Early and Force Child Marriage.

Government of Canada in collaboration with a Canadian company coordinated with Observatory an emergency response during floods in Southern part of Albania that occurred in February 2015. Our support provided assistance to 145 families in village of Povelce and Darzeze and Observatory helped to deliver mattresses, blankets, bed sheets to families in extreme living conditions.

My diplomat colleagues from Canadian Embassy in Rome and I have monitored all the projects and we have been very pleased with progress, involvement and commitment of this NGO.

Observatory has consistently demonstrated a very correct and responsible approach in working with CFLI.

I consider Observatory a reliable serious NGO, a devoted partner in such important projects.

Sincerely
Elton Harito

CFLI Project Coordinator
